

GLOBAL ENTREPRENEURSHIP WEEK

ABOUT US

Global Entrepreneurship Week honours those who generate new ideas and create jobs by starting businesses that advance the welfare of people and the economy. In 170+ countries, GEW inspires people for one week in November through local, national, and international events, competitions, and networking opportunities that introduce participants to new opportunities and exciting possibilities. These events range from large-scale competitions and events to small-scale networking opportunities. Decentralised communities worldwide can use the Global Entrepreneurship Network as a compass to navigate entrepreneurial ecosystems.
